

HIMANSHU

+91 7015708154 | dahiyahimanshu80@gmail.com | <https://www.linkedin.com/in/himanshuakabored/>

Full-Stack Developer and UI/UX Designer experienced in building modern web applications end-to-end — from Figma designs to production deployment. Skilled in React, Next.js, Node.js, Express.js, MongoDB, and Tailwind CSS, with a focus on responsive interfaces, REST APIs, and scalable, database-driven products.

Technical Skills

Languages: Java, C, C++
Design: Figma, Framer, AdobeXD
Frontend: Next.js, React.js, JavaScript, HTML, CSS, Tailwind CSS
Backend: Node.js, Express.js, REST APIs
Databases: MongoDB, SQL
Tools: Git, Github, Postman, MCP
AI/Tools: Gemini API, Github API, Huggingface, Stitch

Experience

Software Engineer Intern — Softech Media

July 2026 – Present

- Contributing to the ongoing redesign of Orbit Shipping Services, a UAE-based freight and logistics company, developing key user-facing interfaces to support the client's site modernization initiative
- Collaborating with the design and client teams to translate business requirements into responsive, user-centric web interfaces, contributing to improved usability and brand consistency across the platform

Full Stack Developer Intern — Yanegi

May 2026 – July 2026

- Redesigned and developed Yanegi's website into a fully responsive, production-ready web experience, implementing reusable components, interactive interfaces, and smooth animations.
- Built and refined the frontend using Next.js, TypeScript, Tailwind CSS, Framer Motion, and GSAP, translating UI/UX designs into functional web interfaces.

Projects

EBAT | <https://github.com/Bored008/EBAT>

September 2026

- Designed and developed the end-to-end web experience for a B2B drone security platform, translating the brand direction "Built for the unseen threat" into a bold black, white, and red visual identity across the homepage, product pages, and About Us page. Built a production-ready, responsive frontend with animated components from Figma designs.
- TechStack: Next.js, TypeScript, Tailwind CSS, GSAP, Figma (For Design)

YANEGI | <https://github.com/Bored008/Yanegi>

June 2026

- Redesigned and developed Yanegi's website into a fully responsive, production-ready web experience — a live map app for discovering real-time local hangouts across cities like Delhi, New York, and Tokyo — implementing reusable components, interactive interfaces, and smooth animations.
- Built the frontend using Next.js, TypeScript, Tailwind CSS, Framer Motion, and GSAP, translating Figma designs into functional, animated web interfaces.

DocDesign | <https://github.com/Bored008/DocDesign>

March 2026

- Built an AI-assisted documentation and UI content generation tool that converts structured prompts into clean, developer-ready documentation layouts. Developed the interface using React, JavaScript, HTML, CSS, and TailwindCSS, Figma, Node.js, Express.js, MongoDB, Generativeai enabling users to quickly generate organized documentation sections and reusable content blocks for projects and portfolios.

Education

Deenbandhu Chhotu Ram University of Science and

Sept. 2024 – June 2028

Technology *B.Tech in Electronics and Communication — CGPA: 7*

Murthal, Sonipat

Extracirricular

- Core Team Member of the Open Developers Community (ODC), DCRUST
- Got a special mention in UX Imperium Hackathon, NSUT.
