

HIMANSHU

+91 7015708154 | dahiyahimanshu80@gmail.com | <https://www.linkedin.com/in/himanshuakabored/>

UI/UX Designer with a strong frontend foundation, focused on designing intuitive, responsive, and visually polished digital experiences. Skilled in Figma, wireframing, prototyping, user flows, and design systems, with an understanding of how designs translate into real-world interfaces.

Technical Skills

Design: Figma, Framer, AdobeXD

UI/UX: User Flows, Wireframing, Prototyping, Information Architecture, User-Centered Design

Tools: Git, Github, MCP

AI/Tools: Claude, Stitch

Experience

UI/UX Designer Intern — Yanagi

May 2026 – July 2026

- Redesigned the Yanagi website, focusing on responsive layouts, visual consistency, intuitive navigation, and polished user interactions across devices.
- Translated UI designs into a live, production-ready website, collaborating between design and frontend development to maintain design accuracy and usability.

Projects

EBAT | Safety Drone Platform

- Designed the end-to-end UX/UI for a B2B drone security company, translating the brand direction "Built for the unseen threat" into a bold black, white, and red visual identity. Designed the homepage, product pages, and About Us page in Figma while writing the full site copy. Built the design system directly in Figma using the Figma MCP integration, refining auto-layout, typography, and spacing across the site.

ORBIT SHIPPING SERVICES | Logistics & Shipping Platform

- Designed a professional shipping and logistics platform focused on simplifying shipment management, tracking, and delivery workflows. Created intuitive interfaces for shipment booking, tracking, order details, and service discovery, with a clean information hierarchy to make complex logistics data easier to understand and navigate.

PaperBuddy | Logistics & Shipping Platform

- Designed a multi-role school management platform for students, teachers, administrators, office staff, and drivers, focusing on role-specific user experiences. Created responsive desktop, tablet, and mobile interfaces using reusable components, structured navigation, and consistent visual hierarchy.

ECHO | Music Streaming & Social Listening App

- Designed a music streaming and social listening platform focused on personalized discovery, playlists, friend activity, and collaborative listening. Designed key experiences including Live Jam, shared queues, recommendations, profiles, and Sanctuary Mode while developing a consistent, modern visual system across the product.

Education

Deenbandhu Chhotu Ram University of Science and Technology

Sept. 2024 – June 2028

B.Tech in Electronics and Communication — CGPA: 7

Murthala, Sonipat

Indian Modern Senior Secondary School

April 2023

12th — Grade: 86%

Gohana, Sonipat

Extracirrucular

- Core Team Member of the Open Developers Community (ODC), DCRUST
- Got a special mention in UX Imperium Hackathon, NSUT.
